

Best Practices

Best Practice I HEALTH CENTRE

Goal:

- a) To create health & hygiene awareness among the students and make them responsible citizens.
- b) To prepare health-cards by imparting basic health knowledge to the students.
- c) To make the students aware of their rights and duties towards the society and the country.

Context:

The heart of Indian Health is Awareness. It means that every citizen of country should know about the importance of being Healthy. It is expected that every student knows at least the elementary things essential for being healthy in the country. The faculty members of the Home-Science department associate themselves with different organizations, students and community at large. The Institution's objective is not just to impart education but also to serve the society within the available resources. Thus since the year 2010-11, the Institution has introduced a novel platform—'Health Centre' with the motto —'Health is Wealth'.

Practice:

The Health Centre enrolls all the students as their members free of charge. It has a full-time doctor who advises and treats the students. The Centre also creates awareness by organizing Thalassemia tests and Blood-Donation camps. The Clinic also conducts guest lectures on health & hygiene issues.

Evidence of Success:

The Health Centre has been instrumental in creating health-care & health-awareness among the students. The students are taking more interest because they get updated information about their blood-group, their weight, height etc. and they have an opportunity to interact with the lady doctor in solving their health issues.

Best Practice II

CAREER COUNSELLING AND PLACEMENT CENTRE:

Goal:

- a) To provide career counseling at the under-graduate level.
- b) To suggest & offer placement opportunities in and around Porbandar.
- c) To instill basic human values like nationalism, patriotism, secularism.
- d) To create awareness about conserving and protecting our environment.
- e) To prepare worthy citizens for the country

Context:

- a) In today's era the dynamic young students have not only to be nurtured and reared but also to be motivated to reach their destinations. The Institution is instrumental in moulding the character of students and shaping their destiny, to be responsible and worthy citizens of India. There are lots of career opportunities in our country with regard to Education, Environment, Banking, etc. In fact, many citizens of India are unaware about career options and opportunities available. Hence it is essential that the students are made aware of these career prospects. Career awareness also makes the students more thoughtful when it comes to making important decisions.
- b) The Institution's objective is not only to impart education but also to instill basic human values like nationalism, patriotism, secularism etc. and thereby prepare worthy citizens for the country. With this motive the Institution has initiated the CCPC to spread the message of ideal career orientation and national integration.

Practice:

The College encourages its students to enroll in the "Career Counselling and Placement Centre." Every year, various departments, take the final year students to the Centre and arrange counseling sessions.

Career Counselling and Placement Centre to organised District Mega Job Placement Fair in association with the District Employment Exchange in presence of Cabinet Minister Shri Jayeshbhai Radadiya on 23rd August 2018.

Evidence of Success:

The response is overwhelming from not only the students and teachers but also from the Alumni.
