For Principal's Message

My Dear students,

The NAAC Peer-Team Visit is gradually coming closer. And as a part of our preparations to show-case our success stories and our achievements, a special 'photograph' issue is being brought out. As such, in retrospect, there is much for us to cherish in terms of your performance in University Examinations and in executing co-curricular activities at the college level. However, I must warn you against complacency. The success graph needs to go higher and higher, as there is no terminating point of excellence. It is an educational process that needs to move on and on. May God bless you all.

Jai Hind.

Dr. Anupam R. Nagar
